

ERPinfinity – Complete Directory of All Database Tables

> **Project Name:** ERPinfinity > **Database Architecture:** Database-Per-Service (Microsoft SQL Server 2022) > **Total Relational Tables:** 54 Tables across 12 Microservice Databases ---

Complete Database & Table Directory Matrix

#	Database Name	Table Name	Primary Key (PK)	Key Foreign Keys (FK)	Functional Description
1	Db_Identity	Users	Id (GUID)	None	System user authentication profiles, passwords & emails.
2	Db_Identity	Roles	Id (INT)	None	Enterprise system role definitions (Admin, Manager, Cashier).
3	Db_Identity	UserRoles	(UserId, RoleId)	UserId , RoleId	Junction table mapping Users to Roles.
4	Db_Identity	Permissions	Id (INT)	None	Granular security permission codes (e.g. Sales.Create).
5	Db_Identity	RolePermissions	(RoleId, PermissionId)	RoleId , PermissionId	Junction table mapping Roles to Permissions.
6	Db_Product	Categories	Id (INT)	ParentCategoryId	Hierarchical product taxonomy (Grocery \$→\$ Spices \$→\$ Salt).
7	Db_Product	Brands	Id (INT)	None	Master brand directory (Tata, Nestle, Unilever).
8	Db_Product	Products	Id (GUID)	BrandId , CategoryId	Master product header records.
9	Db_Product	ProductSKUs	Id (GUID)	ProductId	Specific SKU pack sizes, weight & selling prices.
10	Db_Product	Barcodes	Id (BIGINT)	SKUId	EAN/UPC barcodes for sub-2ms POS scanner scanning.
11	Db_Product	ProductOutbox	Id (GUID)	None	Outbox pattern events for RabbitMQ integration.

#	Database Name	Table Name	Primary Key (PK)	Key Foreign Keys (FK)	Functional Description
12	Db_Inventory	Stocks	Id (BIGINT)	None	Current physical, reserved & available stock levels.
13	Db_Inventory	StockTransactions	Id (BIGINT)	None	Immutable transaction ledger for every stock change.
14	Db_Inventory	StockAdjustments	Id (GUID)	None	Inventory correction logs (damage, audit variance).
15	Db_Inventory	StockTransfers	Id (GUID)	None	Warehouse-to-store stock shipment headers.
16	Db_Inventory	StockTransferItems	Id (BIGINT)	TransferId	Line items inside a stock transfer shipment.
17	Db_Sales	POSRegisters	Id (GUID)	None	Cash counter terminal sessions & cash balances.
18	Db_Sales	SalesInvoices	Id (GUID)	None	Customer retail billing invoice headers.
19	Db_Sales	SalesInvoiceItems	Id (BIGINT)	InvoiceId	Individual product lines billed on an invoice.
20	Db_Sales	SalesReturns	Id (GUID)	OriginalInvoiceId	Product returns and cashier refund receipts.
21	Db_Sales	SalesOutbox	Id (GUID)	None	Outbox event queue for POS sale completion events.
22	Db_Purchase	Suppliers	Id (GUID)	None	Procurement vendor master, GSTIN & credit days.
23	Db_Purchase	PurchaseOrders	Id (GUID)	SupplierId	Purchase Order headers and approval statuses.
24	Db_Purchase	PurchaseOrderItems	Id (BIGINT)	POId	SKUs, ordered quantities and unit purchase prices.
25	Db_Purchase	GoodsReceivedNotes	Id (GUID)	POId	Goods Received Notes (GRN) for warehouse deliveries.

#	Database Name	Table Name	Primary Key (PK)	Key Foreign Keys (FK)	Functional Description
26	Db_Purchase	GRNItems	Id (BIGINT)	GRNId	Accepted vs rejected item quantities on delivery.
27	Db_Warehouse	Warehouses	Id (GUID)	None	Central distribution center & warehouse facilities.
28	Db_Warehouse	Zones	Id (INT)	WarehouseId	Warehouse storage zones (ColdStorage, DryGrocery).
29	Db_Warehouse	Racks	Id (INT)	ZoneId	Rack structures inside warehouse zones.
30	Db_Warehouse	Bins	Id (BIGINT)	RackId	Specific bin locations and weight capacity limits.
31	Db_Warehouse	PickingLists	Id (GUID)	None	Order picking list routes for warehouse staff.
32	Db_Order	Carts	Id (GUID)	None	E-commerce active shopping carts.
33	Db_Order	CartItems	Id (BIGINT)	CartId	Items placed in a customer shopping cart.
34	Db_Order	Orders	Id (GUID)	None	E-commerce order headers and delivery status.
35	Db_Order	OrderItems	Id (BIGINT)	OrderId	Line items included in an online customer order.
36	Db_Order	OrderStatusHistory	Id (BIGINT)	OrderId	Lifecycle audit log of order status changes.
37	Db_Pricing	PriceLists	Id (INT)	None	Base price list definitions & currencies.
38	Db_Pricing	SKUBasePrices	Id (BIGINT)	PriceListId	Master SKU base prices and effective dates.
39	Db_Pricing	Promotions	Id (GUID)	None	Promotional campaign offers, discounts & coupons.
40	Db_Pricing	StoreSpecialPrices	Id (BIGINT)	None	Store-specific price overrides.

#	Database Name	Table Name	Primary Key (PK)	Key Foreign Keys (FK)	Functional Description
41	Db_Payment	PaymentTransactions	Id (GUID)	None	Payment transaction records (Cash/UPI/Card).
42	Db_Payment	PaymentAttempts	Id (BIGINT)	PaymentTransactionId	Raw gateway payload logs and status codes.
43	Db_Payment	Refunds	Id (GUID)	PaymentTransactionId	Refund request logs and status tracking.
44	Db_Payment	PaymentReconciliations	Id (BIGINT)	None	Daily bank gateway settlement reconciliations.
45	Db_Finance	Accounts	Id (INT)	None	General Ledger Chart of Accounts (Assets/Liabilities).
46	Db_Finance	JournalEntries	Id (GUID)	None	Header for financial accounting journal vouchers.
47	Db_Finance	JournalEntryLines	Id (BIGINT)	JournalEntryId , AccountId	Double-entry Debit and Credit transaction lines.
48	Db_Finance	SupplierLedgers	Id (BIGINT)	None	Vendor payables, pending GRN bills & payments.
49	Db_Finance	TaxSettlements	Id (BIGINT)	None	GST input/output tax balance calculation logs.
50	Db_Store	Stores	Id (GUID)	None	Physical supermarket store locations.
51	Db_Store	StoreTerminals	Id (GUID)	StoreId	Register terminals assigned to stores.
52	Db_Store	StoreUsers	(StoreId, UserId)	StoreId	Staff assigned to specific physical stores.
53	Db_Notification	NotificationTemplates	Id (INT)	None	Email, SMS, and WhatsApp message templates.
54	Db_Notification	NotificationLogs	Id (BIGINT)	None	Log of sent & failed notifications.

Breakdown by Microservice Database

1. Db_Identity (5 Tables)

- Users - Roles - UserRoles - Permissions - RolePermissions

2. Db_Product (6 Tables)

- Categories - Brands - Products - ProductSKUs - Barcodes - ProductOutbox

3. Db_Inventory (5 Tables)

- Stocks - StockTransactions - StockAdjustments - StockTransfers - StockTransferItems

4. Db_Sales (5 Tables)

- POSRegisters - SalesInvoices - SalesInvoiceItems - SalesReturns - SalesOutbox

5. Db_Purchase (5 Tables)

- Suppliers - PurchaseOrders - PurchaseOrderItems - GoodsReceivedNotes - GRNItems

6. Db_Warehouse (5 Tables)

- Warehouses - Zones - Racks - Bins - PickingLists

7. Db_Order (5 Tables)

- Carts - CartItems - Orders - OrderItems - OrderStatusHistory

8. Db_Pricing (4 Tables)

- PriceLists - SKUBasePrices - Promotions - StoreSpecialPrices

9. Db_Payment (4 Tables)

- PaymentTransactions - PaymentAttempts - Refunds - PaymentReconciliations

10. Db_Finance (5 Tables)

- Accounts - JournalEntries - JournalEntryLines - SupplierLedgers - TaxSettlements

11. Db_Store (3 Tables)

- Stores - StoreTerminals - StoreUsers

12. Db_Notification (2 Tables)

- NotificationTemplates - NotificationLogs
